Learn the fundamentals of foundation paper piecing (FPP) while creating stunning hexagon blocks. No previous FPP experience is required—just a willingness to learn a fun new technique! Along the way, we'll also explore how color, value, and fabric choices can dramatically change the look of your quilt. **Everything in pink is clickable.**

Materials:

- **Pattern:** Home Run quilt pattern ([printed](#) or [digital](#) version)
- **Foundation Paper Piecing Templates**
If using the PDF pattern, print templates at 100% scale:
 - (8) Triangle 1
 - (4) Triangle 2
- **Coloring Pages:** [Free printable coloring pages](#) are available for planning your layout, color placement, and quilting motifs.
- **Fabric:** ([kits](#) available) Bring 3–5 fabrics in ¼–½ yard cuts or scraps from your stash. Solids and batiks are easiest for learning FPP because most don't have a right or wrong side. Prints work beautifully too and I'll show you how to use them successfully. Refer to the pattern for yardage requirements if you plan to make additional blocks after class.
- **Thread:** Coordinating thread—[DecoBob](#), an 80 wt thread, is great for FPP

Supplies:

- Pencil
- Colored pencils
- Paper scissors or a rotary cutter reserved for paper
- [Basting glue](#) (washable glue stick)
- [Rotary cutter](#) for fabric
- [Add-a-Quarter Plus](#) ruler
- [Small cutting mat](#)
- [Seam roller](#)
- [Seam ripper](#) (Just in case!)
- [Lightbox](#) (optional but helpful)
- Sewing machine with a standard foot

Before Class:

1. Order the [Home Run quilt pattern](#) or purchase it in class.
2. Review the supply list and gather your materials. Linked supplies can be ordered from SnapdragonQuilting.com or purchased in class.
