Create the stunning Lunar Luxe quilt while learning three of Jen's favorite techniques: reverse appliqué, freezer paper appliqué, and foundation paper piecing. This immersive 3-day master class combines bold design with precision techniques to help you build confidence, expand your quilting skills, and create a truly show-stopping quilt. Whether you're new to these methods or looking to refine your skills, you'll leave with new techniques, expert tips, and significant progress on your Lunar Luxe quilt. Everything in pink is clickable.

Before class:

1. [Starch](#) and press fabrics. Because Lunar Luxe includes curves and bias edges, starching fabric before cutting helps reduce stretching and distortion.
2. If using CutRite Heavy-Duty Freezer Paper [sheets](#) instead of the [pre-cut templates](#), trace and cut all freezer paper templates before class.
3. Purchase the [Lunar Luxe quilt pattern](#)
4. Gather supplies before class. Most supplies can be purchased at Snapdragon Quilting or online at SnapdragonQuilting.com.
